EDUCATION

Truman State University

Kirksville, MO

Bachelor of Science in Computer Science, Minor in Data Science

Expected: May 2029

- **SAT:** 1510 | **Relevant Courseworks:** Object-Oriented Programming, Data Structures, Discrete Math, Algorithms, Calculus I, Calculus II, Computer Systems Architecture

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, Python, C#, SQL, HTML/CSS

Frameworks: React.js, React Native, Node.js, FastAPI, LangChain, Express.js, TailwindCSS, Unity

Technologies: Git/Github, AWS (Strands), MongoDB, Firebase, Redis, Selenium

EXPERIENCE

Undergraduate Research Assistant

Oct. 2025 – Present

Truman State University

Kirksville, MO

- Developed upon a **natural-language-to-FOL reasoning pipeline** leveraging Python, pandas, PyTorch, and Hugging Face Transformers (RoBERTa-large-MNLI) to convert text into formal logic for robotic planning.
- Building a **React Native** mobile app with multi-stop planning, using Google Maps API for robotics navigation.

Software Engineer

July 2025 – Present

NaNi Kids Futsal - Soccer Academy

Remote

- Engineered and **migrated legacy codebase** to a MERN-stack website for **1200+** soccer students, reducing admin workload on attendance, tuition, and student management by **80%** and saving **\$1000+ monthly**.
- Constructed **45+ RESTful** endpoints and JWT auth for 3 roles using Node.js and Express, led migration of **2.9k+** documents to a new schema, and integrated **Cloudinary** for secure media storage.
- Automated daily attendance tracking via **MongoDB** aggregation pipelines, saving **25+ hours/month**, and streamlined tuition reporting process via responsive and filterable dashboard.

PROJECTS

TruDegree - ACM Hackathon | TypeScript, Python, React.js, LangGraph, FastAPI, Selenium

Nov. 2025

- **Won 2nd place** by engineering an **agentic AI academic advisor** using **LangGraph's ReAct + GPT-5-mini**, enabling dynamic tool use, prerequisite validation, and course sequencing, cutting degree planning time by **98%**.
- Integrated web scraping for **90+** Truman sample plans using **Selenium, regex, and BeautifulSoup**, enabling the agent to analyze live course data and generate personalized, data-driven plans while reducing LLM token use.
- Achieved high accuracy across **458 web-scraped** course requirements using a **1,500-line** reasoning framework with recursive validation and structured PDF-to-JSON parsing via LangChain + Pydantic.

WIWI - HackMidwest 2025 | TypeScript, React.js, Python, AWS, Express, MongoDB

Oct. 2025

- Led a team of 4 to develop an **AI-agentic resale and raffle marketplace** in **24 hours**, combining **Node + FastAPI + AWS Bedrock** to let users profit from used items while **70%** of overflow revenue goes to charity.
- Created multi-agent **AWS Strands** for auto verification, pricing, and chatbot (image/EXIF checks, web validation, trust scoring), cutting manual review by **90%+** and delivering an MVP with Stripe, AWS S3, and cron-job.

AI Glow | LangChain, Python, FastAPI, React.js, Express.js, Firebase, Redis

Oct. 2025 – Present

- Built an AI-powered SAT platform using **LangChain, Pydantic, FastAPI, React, Express, Redis**, and **Firebase Auth**, automating multi-page PDF extraction, difficulty estimation, and **70+** skill tagging while adding caching and batch writes to boost speed, scalability, and cut manual work by **95%**.

LEADERSHIP

Project Lead - Google Student Developer Club | Kirksville, MO

Aug. 2025 – Present

- Led software and tech initiatives, including a **React.js** hackathon website and an escape room for **5+** teams.
- Facilitated and led technical workshops, guiding **40+** students in learning web technologies (**HTML/CSS**) and enabling them to build real-world projects and strengthen coding skills.

Webmaster - Association for Computing Machinery | Kirksville, MO

Aug. 2025 – Present

- Boosted engagement by leading hackathon participation, promoting events, and technical initiatives.
- Developing a new ACM website in **Angular**, improving visibility for **100+** members and prospective students.
